Acoustics:

Verse has been tested in accordance with ISO 717-1:2004 Acoustics – Rating of sound insulation in buildings and of building elements – Airborne sound insulation.

Independent Acoustic Testing shows that Verse can qualify for 3 Green Star Credits for acoustics and can achieve between 28-36Dw at 40dB Ambiance with a Privacy Rating of 64-74, depending on the wall type and material selected.

Normal voice conversations can be heard as a muffled sound in adjoining rooms but cannot be understood.

Verse acoustic performance is comparable to most general use office rooms.

Panel Layers:

Fixed Panel External Fabric

Acoustic Insert 50mm Thick NRC 0.8

Internal Framing

Removable Panel Internal Fabric or Sonic Board

Air Ventilation:

Verse 2 has Induction airflow to give the larger room cleaner and better air exchange, with a maximum rating of 250-166L/s for 2-3 people in the space.

Fire Safety:

The fire safety of all surface materials; timber, upholstery and acoustics materials used in Verse are tested and classified by either national or international standards.

No fire hazardous materials are used in the construction. Timber frames use BAL-19 Victorian Ash with natural fire resistance qualities (Higher rated Blackbutt BAL-29 can be used on request). Upholstered frame MDF substrate meets AS 3837, AS 1859.2 & AS 4266.16. Fabrics used in upholstery meets AS 3837 & ISO 5660-1. Interior and roof Sonic Boards meets EN 13501-1; B-s1,d0. Roof and wall acoustic insulation meets ISO 9705 & AS 5637.1. Laminate boards used in the roof meets AS 1859.2/3, AS 4266.13, AS 1539.3, and AS 3837.

The installation or relocation of Verse is not allowed to adversely impact on the regulatory requirements of a building. The location of Verse has to consider the location of exits and paths of travel to exists so as to not restrict the use or access of them.

Verse roof is adaptable to sprinklers and smoke detectors. Check with your local experts on the specific regulations, however if fire sprinklers are required in the booths a flexible pipe is to be used and at least 100mm of clearance above the ceiling to enable the roof to be lifted to gain access to services in the ceiling.
Lighting:

Verse comes with 19W/m LED Strip Lighting and Driver suited for different room sizes with 1800lm/m Natural White (4000K).

Verse lighting brightness can be controlled by a dimmer, and turned off by PIR sensor when the room is unoccupied.

Door / Light Switch Position:

All lighting components are compliant with Asia Pacific regional standards and certification requirements that include, EN 60598-1&2, AS61347.1&2, RCM, CE, RoHs and CCC.

Panel: 600/900mmW
Floor Height: 1050mm
Depth from left/right side: 100mm
External Swing door left or right side
Switch can be placed on left hand or right hand front panel

Seismic Safety:

Verse can be anchored to the floor with bolts to keep the room upright in case of seismic activity. On request only. If Seismic is required, then depending on local Electrical Regulations alternative wiring looms may be required. Contact us for more information.
